

# Memphis TGA Ryan White Part A & MAI Emergency Financial Assistance Service Standards

## **PURPOSE**

The purpose of the Ryan White Part A and MAI Emergency Financial Assistance (EFA) Standards of Care is to ensure that uniformity of service exists in the Memphis Transitional Grant Area (TGA) such that the consumers of a service receive the same quality of service regardless of where or by whom the service is provided. Standards will be used as contract requirements, in program monitoring, and in quality management. If an agency is unable to meet a particular standard, the agency must document why the standard was unable to be met and explain the steps it is taking to meet that standard.

## **MEMPHIS TGA DEFINITION**

The Memphis TGA has defined Emergency Financial Assistance (EFA) as the provision of short-term payments to vendors to assist with emergency expenses related to eyeglasses (must be directly related to HIV infection), essential utilities, and emergency short-term housing, including shelters, missions, hotels, and motels. Under no circumstances shall payment be made directly to clients.

The Memphis Area Planning Ryan White Planning Council has established a cap on EFA of \$500 for the grant year effective FY 2013.

In the specific emergency situations listed below, an additional \$500.00 is available per client:

- past due balances for utilities when it directly prevents a client from obtaining permanent housing;
- past due balances for utilities when it directly prevents a child from being taken from the home; and/or
- current housing situation is unsafe because of intimate partner violence.

## **HRSA DEFINITION**

Emergency financial assistance is the provision of one-time or short-term payments to agencies or the establishment of voucher programs when other resources are not available to help with emergency expenses related to essential utilities (including heat, electricity, water/sewer, and telephone service), housing, food (including groceries, food vouchers, and food stamps), transportation, and medication.
